

Heavy Duty!

*Metal Cams for strength.
Use for all your unwieldy gear!*

The **YAKSLING**

Great for Carrying
Kayaks and Stand Up Paddle Boards!

The YAKSLING is the easy way to carry your unwieldy kayak or stand up paddle board to shore! The lightweight Yaksling design is self contained as all parts fold back into the mesh bag for easy storage. The mesh bag is attached to the comfortable shoulder pad and the shoulder harness is adjustable to the length you need. The heavy metal cam buckles can handle light to heavy loads. Just cinch them down to your size of boat or board and when you get home you can even use it to hang it up on the wall! Works on all whitewater, sit-on-top or touring kayaks and stand up paddle boards! Save your energy for paddling... not getting to the water! You WILL paddle better when your arms are not tired and your shoulders are not sore from portaging.

Great product at a Great Price!

Ideal for kayaks and stand up boards!

You won't believe how much easier it makes carrying your kayak and paddle! When you get home, the YAKSLING also works as a rack to hang your kayak or board and paddle safely on the wall in your garage!

Step 1

Undo the cinch and turn the mesh bag inside out. Orient the pad side down.

Step 2

Slide looped straps over each boat end and adjust the cam buckles, locking them down tight.

Step 3

Attach your paddle using the Velcro strips.

Step 4

Adjust shoulder strap for length and comfort. Check with lift test then lift over shoulder and you are ready to go!
